

## **WHO WE ARE**

The Marine Corps League is the only Congressionally-chartered U.S. Marine Corps related veterans service organization in the United States. We are a veterans organization that isn't cut from the same cloth as most. We support our local communities while doing things the 'right way,' for the 'right reasons,' while supporting Veterans and their families. We offer services that in one way or another benefit members, Veterans that are not members, and the community at large.

We utilize the leadership we learned while in the service to benefit others while out of the service. We strive to make an impact within and outside of the Veteran community in the state of Wyoming. We schedule events that pertain to Veterans and include families when we can. We maintain an extensive list of resources on this website to assist Veterans in finding what they need in a time of need.
